|------------------------------|-----|
| Conference Committee..... | iii |
| Reviewers..... | iii |
| List of Papers..... | iv |
| Sponsors & Exhibitors..... | vii |
| Presenter Addresses..... | x |
| Keyword index to papers..... | end |

- Paper 1 Corrosion Control In Water Distribution Systems: The Really Dismal Science
M Edwards
- Paper 2 Stray Current Corrosion Real Corrosion
B Martin
- Paper 4 Management Of Corrosion in the Mining Industry
JJ McEwan MB Cortie & DP Enright
- Paper 5 The New Corrosion Engineer: The Public Safety Your Professionalism And A Misaligned Corporate Culture Indifferent To A Higher Calling
PJ Teevens
- Paper 10 Measurement of Concrete Resistivity
B Gerritsen & M Dacre
- Paper 11 Evidence, Inspection, And Testing of Concrete Deterioration
G Vile
- Paper 12 Corrosion Performance Evaluation Of The Aquaron 7000 System On An Existing Marine Structure
AM Peek & MG Ali
- Paper 13 Durability Of Concrete Containing Mining Sand
ABM Diah KBKamarulzaman & KS Ali
- Paper 14 Stainless Steels And Their Use In Potable Water Systems
LH Boulton CA Powell & S Lamb
- Paper 15 The Role Of Silica And Chlorine In Cupric Hydroxide Aging
KA Powers & M Edwards
- Paper 16 The Role of Temperature Gradients In Residential Copper Pipe Corrosion
JC Rushing & M Edwards
- Paper 17 Steel Service Reservoir Protective Coatings Management Strategies
R Callant & R Cox
- Paper 20 Deterioration Mechanism Of Stone Brick And Soil Building Materials
T Ishizaki J Simunek & M Th van Genuchten
- Paper 22 Selecting Fibreglass Composites For Maximum Performance
K Ayres
- Paper 23 The Degradation Of High Temperature Carbon Fibre Aerospace Composites
V Otieno-Alego B Fox A Lowe & J Hodgkin
- Paper 24 Stress Corrosion Of Glass Fibre Reinforced Polymers For Infrastructure Applications
A Khennane & RE Melchers
- Paper 25 Restoration Of Concrete Berth For Lae City Port In Papua New Guinea
AK Agarwall & II Koko
- Paper 27 Review of Concrete And Reinforcement Deterioration Processes
G Vile & S Reid
- Paper 28 Accelerating The Aging Of Copper Pipe
KA Powers & ME Edwards
- Paper 29 The MIC-KEY To Cuprosolvency
MM Critchley NJ Cromar N McClure & HJ Followfield
- Paper 30 Blue Water Corrosion Of Copper: Causes And Implications For Remedial Treatment
RJ O'Halloran FL Smith R Taylor & NB Goodman
- Paper 31 The Development And Application Of Corrosion/Weathering Cyclic Testing
PJ Brennan SJ Grossman RC Raymond & N Harkness
- Paper 32 The Dry Air Method
GL Mojet
- Paper 33 Optimised Inspection For Corrosion Management
C Smith
- Paper 34 Corrosion Resistant Polymer Road Bridges: An Australian Approach
G Van Erp
- Paper 35 Influences of Crack Width On Macrocell Corrosion Of Steel Reinforcement In Concrete Beams Immersed In Seawater
ZT Chang B Cherry & M Marosszeky
- Paper 36 Prediction Of Corrosion Initiation Period Of Steel Reinforcement In Concrete Structures Submerged In Seawater
MZ Mubarak FD Rohman I Imran & S Purwadaria
- Paper 37 Half-cell Potential Mapping of Reinforced Concrete
A Cheaitani & A Collyer
- Paper 38 Study Of Metal Dusting Of Fe-Cr And Fe-Ni-Cr Alloys Under Cyclic Conditions
CH Toh DJ Young and PR Munroe
- Paper 39 A Study of Iron-Carbonate Protective Film Formation
V Ruzic & S Nesic

- Paper 40 Studies On Accelerated Testing And Outdoor Weathering Of Powder Coated Continuously Galvanized Substrate
A Ruggieri D Kirkwood B Matthews & R Fabien
- Paper 41 Bacteriological Influence In The Development Of Iron Sulphide Species In Marine Immersion Environments
R Jeffrey & RE Melchers
- Paper 43 A Marine Corrosion Technologists 25yr Casebook
SJ Collins
- Paper 44 Industrial Pollution And Its Impact On Corrosion And Corrosion Mitigation Practices
DJ Bartlett
- Paper 45 Influence Of Season/Exposure Start Time On Zinc Corrosion, And Implications For Standard Tests Of Fastener Durability
GA King U Buecher D Roberts & W Ganther
- Paper 47 Electrochemical Behaviour of Titanium Nitride Coatings
TH Randle J Golpalakrishna & ED Doyle
- Paper 48 The Characteristics And Mechanisms Of Accelerated Corrosion Due To Erosion
J Xie AT Alpas & DO Northwood
- Paper 51 Pipeline Integrity Assessment Of Petroleum Product Pipelines
D Doran G West & J Galanos
- Paper 52 Stress Corrosion Cracking And Hydrogen Cracking: Differences Similarities And Confusion
RA Francis
- Paper 53 Lynch's Bridge - A Case Study In The Cathodic Protection Of Reinforced Concrete
W Green F Andrews-Phaedonos G Brewster & D McCormick
- Paper 55 Western Basin Wharf Front Beam - Installation And Performance Of A Concrete Cathodic Protection System
MG Ali
- Paper 56 Getting What You Pay For Or Who To Blame If You Don't!
I Baxter
- Paper 57 If You Can Read This You Are Too Close Or (Lit.er.a.cy : noun the ability to read and write)
M Weston
- Paper 58 A Method For Evaluating The Corrosion Resistance Of Anodised Magnesium Alloys
Z Shi G Song & D StJohn
- Paper 59 Application Of Surface Electromagnetic Wave Indicators For Corrosion Control Of Gas Transmission Systems Metal Constructions
VD Sulimin & GM Fedichkin
- Paper 60 An Electrochemical Corrosion Study Of Lead Anode Failure At Electrolyte/Air Interphase Used In Electrowinning Cells
SR Allhkaram & M Parsa
- Paper 61 Optical Interferometry As Electrochemical Emission Spectroscopy Of A Carbon Steel In 5-20 ppm TROS C-70 Inhibited Seawater
K Habib & K Muhana
- Paper 62 Pipe Steel Cracking Resistance in Aqueous Hydrogen Sulfide Solution over the Temperature Range 20 to 150 C
SA Loubenski AP Lubenskiy & VG Antonov
- Paper 64 Means Of Cathodic Protection Based On Innovative Technologies
ZT Galiulin NA Petrov & VD Sulimin
- Paper 65 Some Electrochemical Effects Of CP On Concrete Cracked Due To AAR and Contaminated By Chloride
A Shayan & A Xu
- Paper 66 The Use Of Bitumen Membranes As Barrier Coatings To Encapsulate Steel Substrates
G Macdonald
- Paper 67 Corrosion And Thermal Insulation In Hot Areas - A New Approach
M Mitchell
- Paper 69 Bridge Coating Inspections For Tararua District Council: Lessons Learned
WL Mandeno
- Paper 70 Standardising The Durability Figures Of Metallic And Paint Coatings
RA Francis
- Paper 71 ZINC Our Saviour From Corrosion
F Budge
- Paper 74 Experience Of Corrosion Inhibitor In Acid Gas Plant
AM Alfuraij
- Paper 75 Laser Deposition Of Corrosion Resistant Stainless Alloy Coatings: A Practical Overview
T Anderson
- Paper 76 The Contribution Of Corrosion In Fatigue Failures Of Welded Structures
G Allan
- Paper 77 The Effect Of Alloy Composition And Surface Treatment On The Development Of Filiform Corrosion On aluminium Alloys
JMC Mol E Duxbury BRW Hinton DH van der Weijde JHW de Wit & S van der Zwaag
- Paper 79 Controlling Corrosion On Australian Defence Force Aircraft With Corrosion Prevention Compounds
M Salagaras PG Bushell PNTrathen & BRW Hinton
- Paper 80 The Effect Of Sodium Benzoate On Microbial Corrosion Of Steel In Seawater
I Nurdin NS Sukmawati & E Sutanto

- Paper 81 Cerium Chloride Inhibition For High Strength Low Alloy Steel In Sulfide-Polluted Seawater
CD Venkatesh & Y Liu
- Paper 82 Caustic Stress Corrosion Cracking Of Steels
RK Singh & BC Muddle
- Paper 83 A Phenomenological Model For 'At Sea' Marine Immersion Corrosion Of Mild Steel
RE Melchers
- Paper 84 Over 20 Years Experience With FRP Based On Derakane* Epoxy Vinyl Ester Resins At The Dow Stade
Chemical Plant
A Boon B Schwanewilms B Herrmann & J-C Sommy
- Paper 85 Monitoring Corrosion Of Concrete Reinforcement Using Galvanostatic Pulses
N Birbilis BW Cherry KM Nair & M Forsyth
- Paper 86 Chemical Aspects Of Sealant Products And Their Corrosion Effects On Copper
GJ Kelly G Kerven & T Notoya
- Paper 87 Anodized Magnesium Coating (ANOMAG) AZ91D: Corrosion Protection And Fatigue Performance
PW Haberecht LR Jordan G McAdam P Ross & J MacCulloch
