Mission
The mission of the Journal of Theoretical Accounting Research is to provide a publishing outlet for accounting academics whose papers do not require testing to be complete. Contributions do not include testing as part of their paper. Many publications require testing for consideration. The Journal of Theoretical Accounting Research is dedicated and designed for those academics who wish to put forth ideas, solidly grounded in theory, without testing. It is also hoped that those academics that perform testing will look to this journal for ideas for research and expand on the work already done.

Submissions
Submissions may be made electronically (in Word format to either editor@JTAR.org or jhaber@iona.edu). The review fee is $100 which may be paid by check (payable to the Journal of Theoretical Accounting Research) or through paypal.com (account of editor@JTAR.org). If accepted for publication there is no page or publication fee.

All submissions are acknowledged and subject to a double, blind review process.

Subscriptions
An annual subscription consists of two issues and costs $100. Payment may be made by check (payable to Journal of Theoretical Accounting Research) or through paypal.com (account of editor@JTAR.org).

Format
The journal is very flexible in what would be acceptable formatting. Generally we prefer a 12 point font, double spaced. For ease in review, the title, author(s) and affiliations should be on the cover page, followed by the title and abstract starting the body of the manuscript. The author is free to choose the font, as well the heading style and layout.
