Building a global community of policy-makers, educators and researchers to move education into the digital age.

In 2009, 70 leading researchers, policy makers and educators, spanning six continents, gathered in The Hague in The Netherlands for the first EDUsummiT.

Their primary goals were to:

a) establish a clear view of the role of ICT in 21st century learning

b) examine implications of ICT’s emerging role for formal and informal learning. The first EDUsummiT led to a Call to Action on the Future of ICT in Education.

EDUsummiT 2011 is organized by UNESCO (Teacher Policy and Development Section), the International Society for Technology in Education (ISTE), Society for Information Technology and Teacher Education (SITE), Kennisnet, International Federation for Information Processing (IFIP) WG 3.3 (Research on Education Applications of Information Technologies), the Association of Teacher Education, (ATE) and the International Journal For Computer Assisted Learning.

This meeting will bring together 120 distinguished policy makers, educators, researchers, journal editors and private sector leaders - those key to the field of ICT in Education - to build on the outcomes of EDUsummiT 2009.
