School of Creative Arts

Dear Creative Arts Department,

As Secondary Drama Teacher at Toowoomba Christian College I am writing in regards to the script, Revolution of the Mouth, scripted and performed in 2005 under the direction of Bernadette Pryde.

At Toowoomba Christian College this year, student's have explored new forms of performance through Brecht and Collage Drama, and are now moving towards exploring Comedy in its various forms of satire, slapstick, farce and surrealism. The script, 'Revolution of the Mouth', created by Bernadette and students of company 2006 provides a strong platform from which these units of Brecht, Comedy as well as new aspects of the actor's voice and body for performance effects.

As a culmination of the coming term's work we are planning to perform this remarkable script in a production which includes both senior and junior high school students. Performance is a significant component of Toowoomba Christian College's Secondary Drama Program and provides an extraordinary opportunity for students to concrete their skills and expand their experiences.

We appreciate greatly the privilege of exploring and performing this script and thank Bernadette and her students for the exceptional work in creating Revolution of the Mouth.

Kind Regards

Michelle Tickle
