THE SEA PEOPLE
Late Holocene maritime specialisation in the Whitsunday Islands, central Queensland

Bryce Barker

Editorial team: Jack Golson and Sue O'Connor

PANDANUS BOOKS
Research School of Pacific and Asian Studies
THE AUSTRALIAN NATIONAL UNIVERSITY
Contents

Foreword ix
Preface and Acknowledgements xviii
A note on dates xix

1 The Research Question 1

2 Prehistoric Coastal Use and Models of Holocene Change 5
Marine resources and the environment 5
Significance of shellfish 6
Significance of fish 7
Other marine resources 8
Coastal archaeology in Australia 9
Regional differences 9
Chronological differences 11
Holocene coastal use 12
Environmental models 12
Post-depositional factors 14
Technological models 15
Population models 16
Social models for change 18
Chronology and explanation 20
Conclusion 22

3 Ethnographic and Ethnohistorical Background 25
Reconstructing ‘tribal’ boundaries 26
Defining Ngaro territory 28
Conclusion 32
Estimates of population size 32
Trade and regional interaction 34
Resource use 34
Turtle 35
Dugong 37
Other 37
Canoes and technology 38
Outrigger canoes 38
Bark canoes 39
Discussion 41
Other material culture 42
Other northern coastal observations 42
Discussion 44

4 Palaeoenvironments 45
Palaeoenvironments in northern Australia 46
Palynological evidence 46
Chenier research 47
Other research 48
Discussion 49
Holocene sea levels in northern Australia 49
10,000 bp to 6000 bp 49
6000 bp to the present 52
Discussion 53

5 Field and Laboratory Procedures 55
The survey strategy 55
The surveys 56
The results 56
Discussion 56
Excavation procedures 57
Analysis of cultural material 58
Methods of quantification 58
Shellfish 59
Bone 60
Plant material 62
Land snails 62
Stone artefacts 63

6 Nara Inlet 1, Hook Island 65
Regional description 65
Nara Inlet 1 66
Stratigraphic description 67
Chronology 67
Cultural phases 68
Analysis of cultural material 69
Shellfish 69
Barnacles 75
Fish 75
Crustaceans 77
Marine turtle 79
Other marine fauna 79
Terrestrial fauna 79
Plant material 81
Land snails 82
Lithic artefacts 82
Non-lithic artefacts 83
Charcoal 85
Discussion 85
Shellfish 86
Fish 86
Turtle and whale 87
Crustaceans 87
Terrestrial fauna 87
Meat weights 88
Stone artefacts 88
Conclusion 89

7 Nara Inlet Art Site, Hook Island 91
Regional description 91
Nara Inlet Art Site 91
Stratigraphic description 93
Chronology 94
Analysis of cultural material 94
Shellfish 94
Barnacles 98
Fish 99
Crustaceans 100
Marine turtle 100
Other marine fauna 101
Terrestrial fauna 101
Plant material 101
Land snails 102
Lithic artefacts 102
Non-lithic artefacts 102
Other cultural material 102
Rock art and ochre 102
Discussion 103

8 Border Island 105
Regional description 105
Border Island 1 105
Stratigraphic description 106
Chronology 107
Analysis of cultural material 109
Shellfish 109
Barnacles 112
Fish 112
Crustaceans 113
Marine turtle 113
Terrestrial fauna 113
Plant material 113
Other cultural material 114
Stone artefacts 114
Other artefacts 114
Discussion 114

terra australis 20
xiii
9 Hill Inlet, Whitsunday Island
  Regional description
  Hill Inlet Rock Shelter 1
    Stratigraphic description
    Chronology
  Analysis of cultural material
    Shellfish
    Fish
    Crustaceans
    Other marine fauna
    Terrestrial fauna
    Plant material
    Land snails
    Stone artefacts
    Non-lithic artefacts
  Discussion

10 The South Molle Island Quarry
  Site description
  Historical accounts of Aboriginal activity on South Molle
  Other raw material sources
  Distribution of black tuff
  Petrographic analysis
  Discussion
  Conclusion

11 The Archaeology: A Synthesis
  Timing of occupation
  Subsistence and economy
    The relative importance of dietary resources
    Changes in subsistence
  Conclusion
  Settlement pattern
  Technology
  Conclusion

12 Towards a Prehistory of the Whitsunday Islands
  Holocene change and the Whitsunday islanders
    Archaeological patterns of change
    The Whitsunday Islands and models of coastal occupation
    A model for change in the Whitsunday Islands
  Conclusion

References
List of Figures
1.1 Central Queensland coast: the Whitsunday region, showing excavated sites  xx
3.1 Central Queensland coast: the Whitsunday region, showing Ngaro tribal boundary  27
3.2 Central Queensland coast:‘tribal’ boundaries  29
4.1 Synthesis of late Pleistocene and early Holocene sea-level data: sea-level curves  51
        for (a) SE Australia and (b) NE Australia
4.2 Whitsunday region: coastline at 10,000 BP, –30m contour  54
4.3 Whitsunday region: coastline at 8000 BP, –12m contour  54
6.1 Hook Island  66
6.2 Nara Inlet 1: site map  67
6.3 Nara Inlet 1: stratigraphic sections  68
6.4 Nara Inlet 1: sedimentation rates  69
6.5 Nara Inlet 1: discard rates of shell  69
6.6 Nara Inlet 1: discard rates of *Nerita undata*  70
6.7 Nara Inlet 1: changes in average shell size of *Nerita undata*  70
6.8 Nara Inlet 1: discard rates of *Monodontia labio*  71
6.9 Nara Inlet 1: discard rates of *Lunella cinerea*  71
6.10 Nara Inlet 1: discard rates of *Thais kieneri*  72
6.11 Nara Inlet 1: discard rates of *Acanthopleura gemmata*  72
6.12 Nara Inlet 1: discard rates of *Saccostrea cucullata*  74
6.13 Nara Inlet 1: discard rates of *Trichomya hirsuta*  74
6.14 Nara Inlet 1: discard rates of *Pinctada fucata*  75
6.15 Nara Inlet 1: discard rates of *Melina ephippium*  75
6.16 Nara Inlet 1: discard rates of *Asaphis deflorata*  75
6.17 Nara Inlet 1: discard rates of fish bone  76
6.18 Nara Inlet 1: discard rates of crab shell  78
6.19 Nara Inlet 1: discard rates of terrestrial bone  80
6.20 Nara Inlet 1: discard rates of stone artefacts  83
6.21 Nara Inlet 1: discard rates of charcoal  85
7.1 Nara Inlet Art Site: site map  92
7.2 Nara Inlet Art Site: stratigraphic section  93
8.1 Border Island 1: stratigraphic section  107
8.2 Border Island 1: discard rates of shell  108
8.3 Border Island 1: discard rates of *Nerita undata*  108
8.4 Border Island 1: discard rates of *Monodontia labio*  108
8.5 Border Island 1: discard rates of *Lunella cinerea*  108
8.6 Border Island 1: discard rates of *Acanthopleura gemmata*  108
8.7 Border Island 1: discard rates of *Saccostrea cucullata*  109
8.8 Border Island 1: discard rates of fish bone  109
8.9 Border Island 1: discard rates of turtle bone  109
8.10 Border Island 1: discard rates of charcoal  109
8.11 Border Island 1: discard rates of stone artefacts  109
9.1 Whitsunday Island  118
9.2 Hill Inlet Rock Shelter 1: site map  119
9.3 Hill Inlet Rock Shelter 1: stratigraphic section  119
9.4 Hill Inlet Rock Shelter 1: distribution of charcoal and burnt bone in  128
        relation to that of fish bone
9.5 Hill Inlet Rock Shelter 1: changes in average shell size of *Saccostrea cucullata*  129
10.1 South Molle Island quarry  133
10.2 juan knife
10.3 Whitsunday region: distribution of quarry sources and artefact raw materials

List of Plates
3.1 Central Queensland coast: outrigger canoe
3.2 Central Queensland coast: three-piece bark canoes
3.3 Central Queensland coast: (a) one-piece and (b) three-piece bark canoes
6.1 Nara Inlet, Hook Island
6.2 Nara Inlet 1: rock shelter
6.3 Nara Inlet 1: cut *Eremitochelys imbricata* shell
6.4 Nara Inlet 1: wooden bipoint
6.5 Nara Inlet 1: cut bivalve shell
6.6 Nara Inlet 1: shell fish-hook blank
6.7 Nara Inlet 1: knotted grass string
7.1 Nara Inlet Art Site: view of excavation
7.2 Nara Inlet Art Site: rock art from main panel
8.1 Border Island
8.2 Border Island: detail of Cateran Bay, location of Border Island 1
8.3 Border Island 1: view of excavation
9.1 Hill Inlet, Whitsunday Island
10.1 South Mole Island: view of quarried ridge
10.2 South Mole Island quarry: (a) mined pit; (b) eastern slope of quarry; (c) flakes and hammerstones; (d) tuff substrate

List of Tables
3.1 Whitsunday Islands: historical sightings of island occupation
3.2 Central Queensland coast: historical accounts of subsistence activity
3.3 Central Queensland coast: historical accounts of canoe sightings
4.1 Timing of stillstands relating to specific shorelines across the continental shelf, central Great Barrier Reef
4.2 Mid- to late Holocene emergence in tropical Queensland
4.3 Mean sea levels between 10 000 BP and 8000 BP in north-eastern Australia
5.1 Whitsunday region: sites recorded, by geographical zone
5.2 Meat weights of modern shellfish
6.1 Nara Inlet 1: radiocarbon dates
6.2 Nara Inlet 1: shellfish data for *Nerita undata*
6.3 Nara Inlet 1: shellfish data for *Monodonta labio*
6.4 Nara Inlet 1: shellfish data for *Lunella cinerea*
6.5 Nara Inlet 1: shellfish data for *Thais kieneri*
6.6 Nara Inlet 1: shellfish data for *Acanthopleura gemmata*
6.7 Nara Inlet 1: shellfish data for *Saccostrea cucullata*
6.8 Nara Inlet 1: shellfish data for *Trichomya hirsuta*
6.9 Nara Inlet 1: shellfish data for *Pinctada fucata* and *Melina ephippium*
6.10 Nara Inlet 1: stratigraphic distribution of fish families
6.11 Nara Inlet 1: stratigraphic distribution of crabs
6.12 Nara Inlet 1: stratigraphic distribution of terrestrial fauna
6.13 Nara Inlet 1: stratigraphic distribution of edible plants
6.14 Nara Inlet 1: stratigraphic distribution of non-lithic artefacts
6.15 Nara Inlet 1: total estimated meat weights
7.1 Nara Inlet Art Site: radiocarbon date
7.2 Nara Inlet Art Site: shellfish data for three nerites
7.3 Nara Inlet Art Site: shellfish data for *Monodonta labio*  
7.4 Nara Inlet Art Site: shellfish data for *Lunella cinerea*  
7.5 Nara Inlet Art Site: shellfish data for *Thais kieneri*  
7.6 Nara Inlet Art Site: shellfish data for *Acanthopleura gemmata*  
7.7 Nara Inlet Art Site: shellfish data for *Saccostrea cucullata*  
7.8 Nara Inlet Art Site: shellfish data for *Trichomya hirsuta*  
7.9 Nara Inlet Art Site: shellfish data for *Geloina coxans*  
7.10 Nara Inlet Art Site: stratigraphic distribution of shellfish  
7.11 Nara Inlet Art Site: stratigraphic distribution of other cultural material  
7.12 Nara Inlet Art Site: stratigraphic distribution of crustaceans  
7.13 Nara Inlet Art Site: stratigraphic distribution of edible plants  
8.1 Border Island 1: radiocarbon dates  
8.2 Border Island 1: shellfish data for three nerites  
8.3 Border Island 1: shellfish data for *Monodonta labio*  
8.4 Border Island 1: shellfish data for *Lunella cinerea*  
8.5 Border Island 1: shellfish data for *Thais kieneri*  
8.6 Border Island 1: shellfish data for *Acanthopleura gemmata*  
8.7 Border Island 1: shellfish data for *Saccostrea cucullata*  
8.8 Border Island 1: stratigraphic distribution of fish families  
9.1 Hill Inlet Rock Shelter 1: radiocarbon date  
9.2 Hill Inlet Rock Shelter 1: shellfish data for *Nerita undata*  
9.3 Hill Inlet Rock Shelter 1: shellfish data for *Monodonta labio*  
9.4 Hill Inlet Rock Shelter 1: shellfish data for *Lunella cinerea*  
9.5 Hill Inlet Rock Shelter 1: shellfish data for *Thais kieneri*  
9.6 Hill Inlet Rock Shelter 1: shellfish data for *Acanthopleura gemmata*  
9.7 Hill Inlet Rock Shelter 1: shellfish data for *Saccostrea cucullata*  
9.8 Hill Inlet Rock Shelter 1: shellfish data for *Trichomya hirsuta*  
9.9 Hill Inlet Rock Shelter 1: shellfish data for *Geloina coxans*  
9.10 Hill Inlet Rock Shelter 1: stratigraphic distribution of fish families  
9.11 Hill Inlet Rock Shelter 1: stratigraphic distribution of crabs  
9.12 Hill Inlet Rock Shelter 1: stratigraphic distribution of terrestrial fauna  
9.13 Hill Inlet Rock Shelter 1: stratigraphic distribution of land snails  
9.14 Hill Inlet Rock Shelter 1: attributes of stone artefacts  
9.15 Hill Inlet Rock Shelter 1: stratigraphic discard of cultural material  
10.1 Discard of artefacts of South Mole Island stone at Nara Inlet 1 and Border Island 1  
10.2 Whitsunday region: geographical distribution of artefact raw materials  
10.3 Whitsunday region: petrographic description of selected artefacts  
11.1 Occupation dates for hinterland sites Townsville to Cape Upstart  
11.2 The relative importance of dietary resources at the investigated sites  
11.3 The geographical location of sites in the Whitsunday region
