

## Information Systems: Transforming the Future

The Australasian Conference on Information Systems (ACIS) is the premier conference in Australasia for Information Systems academics and professionals, covering technical, organisational, business, and social issues in the application of Information Technology. In 2013, the ACIS Conference will be hosted by the School of Business IT and Logistics at RMIT University. The event will take place at our City Campus in the new Swanston Academic Building from 4th December 2013. The Swanston Academic Building is located right in the middle of Melbourne's CBD.

ACIS 2013 calls for original, unpublished submissions in English and these must be made via the EasyChair submission system. Information on paper submission format and the review processes will also be available shortly. All papers will be initially checked and those that fail to comply with the submission format will be automatically rejected. All submissions that are compliant will then undergo a double-blind peer review process.
