Bond University is proud to announce its support for the 4th Annual Project Management Conference “PMOZ 2007 – Creating Success.”

Bond University and PMOZ both share a long term commitment to developing the skills and knowledge of project managers within Australia. It is my pleasure to invite all sustainable development and project management professionals to PMOZ 2007 incorporating the sustainable development program by Bond University.

The 2007 PMOZ conference will provide the opportunity for project managers from Australia and New Zealand to share and explore their ideas, approaches and experiences in greater depth with their peers. The conference will consist of four conference streams, a valuable social program, innovative workshops and the change to network with industry. The program will also feature renowned international and national speakers, including Bond University endorsed presentations by Ed Hoffman, Andrew Leicester, Jon Whitty and Michael Regan covering topics on sustainability, asset management and PPP projects.

I urge you to take advantage of this exciting opportunity to learn from leading experts and to contribute your knowledge and experience to the advancement of project management in this region.

Professor George Earl
Head of School - The Bond University Mirvac School of Sustainable Development

Trade Display
Come and visit the Centre for Executive Education at our fully interactive trade display. Trade booth number 13.

www.bond.edu.au

The Bond University Mirvac School of Sustainable Development is the first designated institute that fully integrates environment, urban planning and project management with the practical issues of financial viability and societal expectations. The school is dedicated to fostering and nurturing a new breed of innovative, imaginative and inventive professionals to create an environment and communities built on the triple bottom line of environmental, social and economic sustainability.

Keynote Speakers
- Ed Hoffman – Director of NASA academy of program/project and engineering leadership (APPEL) “Leadership in Project Management”
