

The world's largest professional association for the advancement of technology

Follow:

ST

2013 Seventh International Conference on Sensing Technology (ICST)

IEEE sponsors:

IEEE Instrumentation and Measurement Society

Other sponsors:

Massey University

ICST 2013 is intended to provide a common forum for researchers, scientists, engineers and practitioners throughout the world to present their latest research findings, ideas, developments and applications in the area of sensing technology. ICST 2013 will include keynote addresses by eminent scientists as well as special, regular and poster sessions. All papers will be peer reviewed on the basis of a full length manuscript and acceptance will be based on quality, originality and relevance. Accepted papers will be published in the conference proceedings.

Conference Details

Dates	03 Dec - 05 Dec 2013	Call for Papers for Conference Authors
Location	Massey University Wallace St Mount Cook Wellington, New Zealand	Find details for paper and abstract submission. View call for papers
Web site	seat.massey.ac.nz/conferences/ics	Abstract submission deadline: 10 Jul 2013 Final submission deadline: 15 Oct 2013 Notification of acceptance date: 30 Aug 2013
Contact	SubhasMukhopadhyay Massey University Manawatu Campus AG-HORT Building AH 3.77 Palmerston North New Zealand 4440 6463505799 s.c.mukhopadhyay@massey.ac.nz 6463502259 (fax)	Features Exhibits Back to search results
Conference #	30754	
Attendance	150	
Publications	Download conference papers from IEEE Xplore	

Please see the [conference Web site](#) for full details.

[The 2014 ICST conference](#) will be held at Liverpool John Moores University.

[ICST 2013 Full Program is available, please download PDF Program here.](#)

Massey University, New Zealand is pleased to announce that the 7th International Conference on Sensing Technology (ICST 2013) will be held on December 3 to 5, 2013 at Wellington, New Zealand.

ICST 2013 is intended to provide a common forum for researchers, scientists, engineers and practitioners throughout the world to present their latest research findings, ideas, developments and applications in the area of sensing technology. ICST 2013 will include keynote addresses by eminent scientists as well as special, regular and poster sessions. All papers will be peer reviewed on the basis of a full length manuscript and acceptance will be based on quality, originality and relevance. Accepted papers will be published in the conference proceedings with an IEEE catalog number and ISBN number. The presented papers will be uploaded in the [IEEE Xplore](#). Topics will include, but are not limited to, the following:

1. Vision Sensing
2. Sensors Signal Processing
3. Sensors and Actuators
4. Sensors Phenomena and Modelling
5. Sensors Characterization
6. Smart Sensors and Sensor Fusion
7. Electromagnetic Sensors
8. Chemical and Gas Sensors
9. Physical Sensors
10. Electronic Nose Technology
11. Biological Sensors
12. Electro-optic Sensors and Systems
13. Mechanical sensors (inertial, pressure, and tactile)
14. Nano Sensors
15. Acoustic, Noise and Vibration Sensors
16. Wireless Sensors and WSN
17. Body Area Network
18. Internet of Things (IoT)
19. Security and Reliability of WSN
20. Optical Sensors (radiation sensors, optoelectronic/photonic sensors, and fibres)
21. Lab-on chip
22. Sensor Arrays
23. Intelligent sensing
