**Dear Colleagues,**

It is my great pleasure to welcome all the participants of the ICEE 2005 Conference. There are almost four hundreds of us this year – engineers, university staff members, industry representatives – which proves the esteem of the ICEE meetings. Since I have been personally involved in the ICEE Conferences for many years, let me express my joy of meeting the friends I have befriended at all ICEE and ICEER conferences sites. I am delighted to welcome all the accompanying persons, whose contribution to the conference is significant and their presence is extremely stimulating.

The ICEE 2005 Conference is hosted by the Silesian University of Technology (SUT), in the year of 60th anniversary of its establishing. With its main base in Gliwice in the Upper Silesia region, this University has been playing one of the most important roles in the engineering education in Poland since its beginning in 1945. Today the SUT is a self-governing state university offering various engineering courses at 12 basic faculties. Employing over 2200 academics, the University trains over 25.000 day-time students and offers also evening and extramural courses. Industry of the whole country and in particular branches presented in Upper Silesia region benefit from our graduates and from the research work carried out here.

All sessions, workshops and exhibitions will be organised at the Education and Congress Centre in the middle of the Silesian University of Technology campus. The conference reception and cultural events will be held at picturesque historical places in Gliwice, whereas the ICEE 2005 banquet attendants will have the opportunity to spend the most interesting evening at the Toszek medieval castle. All conference participants are invited to visit the old capital of Poland – Kraków, one of the most famous and glorious towns in Europe for its historic and architectural values, together with the nearby magnificent salt mine Wieliczka. The whole day visit, included in the conference fee, is scheduled on Thursday, July 28, and culminates in the dinner at Zalesie grange, close to Kraków as well as to Tatra mountains.

The Conference was created by people and the main contributors should be applauded, even though they would never be properly rewarded. In particular, I would like to express our highest thanks to Win Aung, as well as other iNEER and ICEE/ICEEE Steering Committees members, whose support was invaluable. I also wish to thank the Organizing Committee and all the University staff members who have assisted in the preparation of the Conference.

During the Conference we will have the opportunity of tracing innovating ideas, sharing our experience, exchanging views as well as making friends, learning different cultures and visiting interesting places. I hope that all of us will have a fruitful and enjoyable time during the Conference. Enjoy your time at the Conference and your stay in Poland!

## INFORMATION FOR ICEE 2005 PRESENTERS

### **ORAL PRESENTATION GUIDELINES**

The total time limit for a speaker is 15 minutes, of which 12 are assigned for presentation and 3 for discussion. All session rooms are equipped with a personal computer (Microsoft Windows 2000/XP operating system, PowerPoint 2000/XP program, CD-ROM, USB port) and data projector. If you need an overhead projector for transparencies please let us know at least one day in advance. There will be internet access (including wireless) during presentation.

If your presentation was sent by e-mail early enough to be placed on the conference CD-ROM, it will be put on the computer by the conference staff. Otherwise please provide the conference staff with your presentation (CD, USB) at least 20 minutes before your session. Please report to the session Chairperson 10 minutes before the session.

### **POSTER PRESENTATION GUIDELINES**

The authors will be provided with stands for A0 posters (108cm × 78cm), portrait orientation. The posters should be printed in advance. Please, make your presentation interesting and legible from distance – use large fonts, include graphs and figures. Assemble the display about an hour before the poster session opens. Be present till the end of the session in order to answer questions and exchange ideas.
